The term “Veteran” means a person who served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable.

What is VD-HCBS?

- Veteran-Directed Home and Community Based Services (VD-HCBS) is a program of the VA for self-directed care.
- VD-HCBS empowers Veterans to choose and manage services and supports in their homes as an alternative to living in a long-term care facility.
- The Veteran or Veteran Representative hires, supervises, evaluates and pays the Employee to provide specific services and supports that the Veteran needs to live in his or her own home.

Consumer or Self-Direction

The Consumer decides:

- What services, supports and goods are needed
 - Buys supports and goods to achieve his or her goals
- When the services and supports are to be provided
- Who provides those services and supports
 - Hires and manages his/her own Employees to provide the services and supports
- Where the services and supports are provided
- How the services and supports are provided

Consumer Direction or Self-Direction
