

Dear Friend of Respite,

We invite you to a unique opportunity to support respite for the nation's family caregivers by sponsoring the **2022 National Lifespan Respite Conference** hosted by the ARCH National Respite Network and Resource Center and the Respite Care Association of Wisconsin. The conference will be held in-person in Madison, WI, on September 13-15, 2022.

National Lifespan Respite Conference  
September 13-15, 2022

The theme for the conference *Reimagine Respite*, is meant to be timely as well as inspirational. The pandemic may be ongoing, but we can now imagine a more hopeful future. COVID-19 cast a harsh light on the lack of support for family caregivers, but it also presented opportunities to raise awareness and rethink traditional supports to ensure that they are more meaningful for family caregivers and their loved ones. This conference will provide a space to *Reimagine Respite*, and to explore new, adapted, or alternative respite services. It will also inspire us to build on what we learned and discover even more creative and meaningful new ways to meet the respite needs of the nation's more than 53 million family caregivers.

Family caregivers provide support, assist with daily living tasks, and even perform medical procedures for loved ones with disabilities or chronic conditions to help them remain at home. Respite care has been shown to help alleviate family caregiver stress and improve health. To address a growing need, innovative research, policies, and respite best practices from both the public and private sectors will be showcased at the conference. We expect as many as 250-300 participants from across the country to attend the event. There will be over 30 breakout workshops to showcase best practices, ground-breaking research, new respite approaches, and family caregiver wellness. Topics will be featured that address the respite needs of people of all ages and abilities.

The conference sponsorship and exhibitor opportunities provide you and your organization the ability to reach hundreds of conference participants from across the U.S. who are actively involved in aging, disability, family caregiving, family support, respite, home- and community-based care, and other long-term services and supports. Boost your visibility in this market through a conference sponsorship that provides unique prospects to network, brand, market and advertise.

A variety of sponsorship and exhibitor options are described in the attached materials. We look forward to your support and working with you in the family caregiving arena. Please consider sponsoring or exhibiting at the 2022 National Lifespan Respite Conference to help *Reimagine Respite*. For more information, please visit the Sponsorship and Exhibitor Information link on the [conference website](#).

Thank you for your consideration and support.
